Youngstown, U., Sept. 25 .- Oberlin, the \$10,000 stallion, dropped dead while being driven this atternoon. The driver was slightly injured. Oberlin was a half brother of Maud S, and has a record of 2:25%.

The Omaha Rifle Club In-Doors. Dr. Worley has been appointed a commit-tee of one by the Omaha Rifls club to secure an enclosed range or gallery in which to continue their weekly target exercise during the winter months. The club will hold the present range at Bellevue until compelled to relinquish it by the cold. Their desire is to get an apartment of large dimensions where they may use reduced targets. This will make their sport very popular during the winter.

AN ANTI-BOODLE SCHEME. Cook County Commissioners Preparing Civil Service Rules.

CHICAGO, Sept. 26.- | Special Telegram to the BEE.]-At a meeting of the recently reformed board of county commissioners this afternoon President Aldrich proposed a code of civil service rules for the administration of the county government which would smash the existing political machines to splinters and gives a life tenure to the present incum-bents of subordinate offices if they continue to honestly discharge their duties. The scheme provides for the establishment of a civil service commission which will be equally divided between the two political parties. Provision will be made by the commission for a competitive examination of applicants for office and the promotions for merit or seniority in office. All obligations on the part of appointees to contribute to political funds will be removed. A board of examiners to test the fitness of applicants for office will be appointed. The main feature is that no officer, clerk or other person employed in any department shall be discharded from office on account of his political opinions, and punishments are provided for infringment of any of the provisions before mentioned. The strongest rules are those drawn up for the purpose of doing away with the system of blackmail for the swelling of political funds hitherto worked by heads of departments or their subordinates. It is thought that the board will adopt the rules. The same set was introduced at the city council meeting to-night for city government and were referred to a committee. two political parties. Provision will be made

A Negro Murdered at St. Joc. ST. JOSEPH, Mo., Sept. 26- | Special Telegram to the BEE. |-Thornton Dike and William McCormick, both negroes, became involved in a quarrel to-day in the alley at the rear of the custom house. McCormick was inside of the custom house yard and dared Dike to come over the fence. Dike refused, when McCormick jumped over the fence and drawing a pocket knife stabbed him twice, once in the abdomen, a gash five inches long, and once in the shoulder. After the wounded man fell Dike picked up a rock and hit him three times on the head. There is no hope for Dike's recovery. McCormick made his secape.

The Sharp Verdict Affirmed. NEW YORK, Sept. 26.—The decision on the Sharp case has been affirmed by the general term. All four of the judges concur. The

term. All four of the judges concur. The case can now be appealed to the court of appeals, but Sharp will be sent to Sing Sing immediately.

Attorney Nelson, of Sharp's counsel, said to-night that undoubtedly an application for a stay would be made to the court of last resort, and Sharp would not see the state's prison pending the result of that application. Assistant District Attorney Nichols said an application for Sharp's committment to prison would be made at once and he would doubtless be sent to prison within forty-eight hours.

Accidentally Shot His Brother. St. Joseph, Mo., Sept. 26.- [Special Telegram to the BEE.j-This morning Nye Leonard, nine years old, shot and killed himself while carelessly handling a revolver. He and his brother Lester, aged seventeen. slept in the same bed. Nye got up this morning while his brother was asleep, took the revolver from under the pillow and was playing with it when the accident occurred. He died in ten minutes.

Neebe Started For the Pen. CHICAGO, Sept. 26.-Anarchist Oscar Neebe, under sentence of fifteen years in the penitentiary, was taken from the county jail and started for Joliet to-night.

and started for Joliet to-night.

Neebe was taken away with much secrecy
by the sheriff's deputies. None of his friends
knew he was to be taken away and to none
of them did he say good bye. The train arrived at 10:30, and the prisoner was at once
hurried to the penitentiary.

Violent Storm in Mexico. El. Paso, Tex., Sept. 26.-A violent storm has been raging in northern Mexico for several days. At Souz, twenty-eight miles north of Chihuahua, a bridge 200 feet long was almost completely destroyed together with considerable other property. Several other washouts have occurred and all trains are de-

The Visible Supply Statement. CHICAGO, Sept. 26.—The visible supply of grain, as shown by the reports compiled by the secretary of the Chicago board of trade, is as follows:

A Candidate Retires.

SYRACUSE, N. Y., Sept. 26.-O. Preston. he candidate of the union labor party for secretary of state, to-day retired in favor of John Swinton, the candidate of the united labor party for the same office. It is thought the entire union labor ticket will be retired and the united labor endorsed

Confessed to Bribery. HALIFAX, Sept. 26 .- Hon. A. W. McLellan, postmaster general, has admitted bribery by agents in his election for the house of commons, and his seat for Colhester is consequently rendered vacant. The charges of personal bribery against McLel-lan are vet to be beauty lan are yet to be heard.

No Conclusion Reached. NEW YORK, Sept. 26 .- The bondholders of the Canada branch of the St. Louis, Kansas City & Northern railway met here to-day for the purpose of devising some means of get-ting the branch road out of the hands of the receiver. They failed to reach any conclu-

Appointed K. of R. and S. CINCINNATI, Sept. 26.-R. L. C. White, of Lebanon, Tenn., has been appointed supreme keeper of the records and seals of the Knights of Pythias to fill the vacancy occa-sioned by this decease of Hon. R. E. Cown, of St. Louis

Funeral of Clerk Simpson. WASHINGTON, Sept. 26 .- The funeral of C. E. Simpson, late enrolling clerk of the senate, took place this afternoon. Mrs. General Logan and many other friends of the deceased were present. The remains will be taken to Carthage. Ill., for interment.

Mike McDonald Shakes His Pals. CHICAGO, Sept. 20.-M. C. McDonald will go into the criminal court to-morrow and surrender ex-Warden Varnell and ex-County Commissioner Van Pelt into the hands of the law and ask for the surrender of his bonds, aggregating \$45,000.

Business Failure. NEW YORK, Sept. 26.-James S. Cowlin, importer of laces and small wares, made an assignment to-day. Liabilities about \$150,000. Assets estimated at from \$50,000 to \$75,000.

Tobacco Crop Damaged By Frost. LYNCHBURG, Va., Sept. 28. - Reports from all through the tobacco regions show it to be seriously injured by frost. Probably one-

ARENSDORF HAS TO HUSTLE

One of His Bondsmen Gets Frightened and Withdraws.

ANOTHER NAME SECURED.

Death of a Victim of the Avoca Wreck -Suicide of a Young Doctor-Farmer Werner's Murderers Held.

Arensdorf's Old Bondsmen Withdraw. Stoux Cirr. Ia., Sept. 23 .- | Special Telegram to the BEE. |-There was a rumor on the street this morning that John Arensdorf's bondsmen had surrendered him and that he was in the hands of the sheriff. The original was in the hands of the sheriff. The original bond was secured by C. F. Hoyt, William Leech, Joe Boersch and R. Selzer. This morning Mr. Leech withdrew from the bond, and John Arensdorf was taken into custody by Sheriff McDonald. Joe Boesch also withdrew. A new bond was secured by Arensdorf, with C. F. Hoyt, R. Selzer and James Junk as sureties.

Death of Ex-Auditor Cattell. DES MOINES, Ia., Sept. 26.—[Special Telegram to the BEE.].—H. Jonathan W. Cattell, ex-auditor of state, died at his home in the country a few miles east of here yesterday, from injuries received in a runaway on Friday. He was a native of Pennsylvania, but came to Iowa in territorial days and has been one of the leading men of the state for many years. He was at two different periods a years. He was at two different periods a member of the state senate, being elected from Cedar county and later from Polk county. He was elected state auditor, serving during the greater portion of the war with great efficency. At the time of the controversy between Governor Sherman and Auditor Brown in 1835, when Brown was removed, Cattell was appointed auditor and held the office till the election of Governor Larrabee and the restoration of Brown. In person he much resembled Abe Lincoln. He was universally respected for his high-minded character and faithful public services.

Northwest Iows Methodists. SIOUX CITY, Ia., Sept. 26.-[Special Telegram to the BEE.]—The Northwest Iowa Methodist conference will meet in Sloux City at the Methodist Episcopal church on Wednesday, at 9 o'clock. The reception will be held Tuesday evening at the church. The address of welcome will be made by George D. Perkins and Bishop Merrill will reply. The conference proper will be opened reply. The conference proper will be opened Wednesday morning at 9 o'clock, with communion services. It is understood the conference will be called upon to raise \$1,900 to replenish the treasury of the Law and Order league. It is understood that Dr. Bedford, who guaranteed T. P. Murphy's \$400 fee as attorney for the prosecution of the Haddock murderers, will not fight the suit Mr. Murphy has brought against him for the payment of the fes. The league is asked to make this amount good to the doctor and will ask the conference to raise the amount and \$600 more.

Alaska's New Attorney. DAVENPORT, Ia., Sept. 26.—[Special Telegram to the BEE.]—Mr. William Grant, appointed United States district attorney for Alaska, is a resident of Davenport, about thirty-five years of age. He is a graduate of Griswold college and the Iowa state university, and is a practicing lawyer, being in partnership with his uncle, James Grant. He is a native of Alabama, which fact throws some light on his appointment, as leading democrats knew nothing about him when the announcement was made.

They Blame the Road. DUBUQUE, Ia., Sept. 25.-[Special Telegram to the BEE.]-The testimony before the coroner's jury on the Eagle Point collision was very damaging to the company and to the new rules adopted some time since. Eighteen conductors and engineers belongto this division of the Milwaukee road testi-ied that they would have acted the same as Conductor Clark and Engineer Fales in car-rying out the instructions sent by the train dispatcher at Lacrosse. The agreeing testi-mony would go to show that the fault is with the new rules adopted by the railway systems of the northwest. systems of the northwest.

Waterway Convention Delegates. DES MOINES, Ia., Sept. 26.-[Special Telegrom to the BEE. |- The governor has appointed the following delegates to the water way convention at Peoria, October 11, to represent the state of Iowa: Ex-Governor Gear, of Burlington; John Manin, of Muscatine; B. B. Richards, of Dubuque; John W. Yerger, of Sciola; A. S. Hafer, of McGregor; Hon. J. H. Murphy, of Davenport, and J. Fred Myers, of Denison.

On Trial For Murder.

NEW HAMPTON, Ia., Sept. 26.—|Special Telegram to the BEE.|—Te coroner's jury in the case of Fred Werner, the man murdered here a week ago, report as follows: "The deceased came to his death from blows from a club in the hands of John of Joseph Frandsen, or both, with criminal intent." Their preliminary trial began to-day.

Pushing the Corn Palace. Sioux Ciry, Ia., Sept. 26 .- [Special Telegram to the BEE. |-A larger force than ever was at work on the corn palace to-day. Everybody is busy with the decorations and the city is putting on a novel appearance, such as it never had before. The idea is growing and expanding and next week, "the carnival week," will see corn crowned as king in a way never before witnessed.

A Young Doctor Suicides. RED OAK, 1a., Sept. 26 .- | Special Telegran to the BEE. !- Dr. O. E. Hartman, a young and promising physician committed suicide this afternoon, by taking one ounce of sconite, dving in less than an hour after taking the dose.

Another Avoca Victim. RED OAK, Ia., Sept. 26.—[Special/Telegram to the Bee. |- Miss Annie Merill. who was injured in the Afton wreck on the 15th inst., died to-day of her injuries.

Died of Apoplexy. RED OAK, Ia., Sept. 26.- | Special Telegram to the BEE.]—Mrs. Clark, wife of Judge Clark, one of lowa's oldest settlers, died to-day of apoplexy.

Natural Gas Produces a Big Boom. HERNDON, Ia., Sept. 21.- [Special to the BEE. |-It is doubtful if any town in Iowa ever had such a boom as Herndon isnow having. It is all on account of the natural gas found here. Ten wells have been bored and in every case the gas was found at a depth of from 115 to 130 feet. The pressure is variously estimated at from 20 to 70 pounds to the square inch. The Herndon Natural Gas and Land company have secured 320 acres for a town site. They are men of wealth and

for a town site. They are men of wealth and experience and are using every effort to boom the new town. Quite a number of business firms have been induced to locate here and at least three manufacturing establishments have been secured, viz.: A large foundry and machine shop that will run entirely by natural gas for heat and power; a planing mill and a broom factory. Negotiations are now going on with several others, it is thought the Chicago, Milwaukee & St. Paul company will build repair shops here. Herndon is located in the northeast corner of Guthrie county, 110 miles from Council Bluffs and fifty-two miles from Des Moines, at the junction of the Wabash Western and the Chicago, Milwaukee & St. Paul railroads, on a perfectly level prairie in a rich farming country, and there is no town within fifteen miles in either direction except Panoe, twelve miles southeast. Three weeks ago the population of Herndon was less than fifty, while now it must be 200. Two families are already using the gas for cooking, lighting and heating their houses. The Land company display the gas in their office in a grand shape. Three brick blocks are in course of erection and small frame houses are being built at a rapid raie, and everybody is wild with excitement. The adjoining lands have either been bought or are held at fabulous prices. Over 200 lots have been sold in the least two weeks. A large gang of men and teams are at work grading the streets. The Herndon Weekly Herald made its first appearance yesterday.

The New York Veteran Firemen's Train Wrecked in Missoust. HOLDEN, No., Sept. 26,-A fearful railroad ecident occurred here on the switch north of Bluhm's elevator, by which two persons lost their lives. The special excursion train of eight coaches, carrying the New York vereran uremen on their return home from their recent visit to San Francisco, was passing eastward at a rapid speed, when it suddenly turned on a switch which had been left open through the carelessness of Yardmaster George Tutthill. The train there collided with a freight standing on the side-track, waiting for the excursion to pass. The freight engine and tender were completely demolished, and the passenger engine, tender and baggage car were badly wrecked. James Reed and William Ramsey, two negroes living at Warrensburg, who were beating their way home from Kansas City, on the front end of the baggage car, were instantly killed. Their bodies were horribly mangled, almost beyond recognition. The veteran firemen showed skill and experience as experts in gathering up the remains of the bodies and in restoring order in the choas of the wreck. Several of the regular passengers were bruised and slightly injured. open through the carelessness of Yardmaster

AMUSEMENTS.

Mr. and Mrs. W. J. Florence Appear in Our Governor.

Pinto Perkins, the character assumed by W. J. Florence in "Our Governor," is an exaggerated type of American character, more pronounced even than that of Bardwell Slote. In the earlier years of our national history there have been legislators who justified the travesty outlined by Mr. Florence. But such a man as Pinto Perkins never existed. Pinto, no matter how much soever Mr. Florence may endeavor to show that he is a victim of habit, of mental obliviousness, is a prevaricator of adamantine density. He is such an one of whom it has been said that even Omnipotence could not enlarge his lying mouth without cutting off his ears. Aside from Pinto's tendency to exaggerate, which is but another word for lying, Mr. Florence's interpretation of the character is scholarly and artistic. It is dignified with the rarest touches of pathos and comedy, although it shows, at the same time, both presence of mind and intelligence when e rushes in and happily prevents the disintegration of a young couple who ought to be, as husband and wife, as happy as mortals can be under the circumstances. The first act last night proauditors.

All the performers, with the exception of the stars, were strangers. of the stars, were strangers.

Miss Stella Boniface, although
dressing in some of the scenes
with less taste than profuseness, and
though handicapped in other ways,
played Mrs. Kingsley in an excellent
manner, despite the fact that the part of a female schemer is not pleasant to contemplate. There is little difference be-tween the Miss Matilda Starr of Mrs. Florence and her Mrs. General Giffory. Both are of the conventional order, and Miss Starr is less an English woman, even in exaggeration than Mrs. Gilflory

is an American.

To-night these worthy people, no matter how much they may be criticised in minor details, will receive the meed of a large house in their play of "The Flirt."

Another Failure Story. The threadbare report again reached this office yesterday that C. E. Mayne had made an assignment. A BEE reporter interviewed Mr. Mayne on the subject last night and was informed that the report was false and probably started by some maliciously included person. Mr. Mayne is working away at his office as usual and says there is no danger of his making an assignment.

Brevities. Yesterday's internal revenue collec-

tions amounted to \$11,069.71. The Brick Moulder's union held meeting last night in Kessler's hall.

The meeting of anarchists which was called to take place in the old Bohemian hall, on South Thirteenth street last night did not materialize. B. Easton, a gentleman of color, was

arrested yesterday afternoon in Dago alley for his flights of oratory, while under the influence of budge. His objec-tion to be taken to the station was that he always gets robbed there. The threatening aspect of the sky last

evening kept a good many members of the board of education at home, and as a consequence there was not a quorum present at the proposed adjourned meet-Where the Cigar Got Its Name.

Chicago Tribune: The origin of the word eigar is of some interest and is not to be found in the ordinary dictionaries. The worp, of sourse, is Spanish, and Littre in his French dictionary says that it is derived from eigarra, the Spanish name for grasshopper. When the Spaniards first introduced tobacco into Spain from the island of Cuba in the sixteentl century, they cultivated the plant in their gardens, which in Spanish are called cigarrales. Each grew his tobacco in his cigarral and rolled it up for smoking as he had learned from the Indians in the West Indies. When one offered a smoke to friend he could say: "Es de mi cigarrel"—it is from my garden. Soon the expression came to be: "Este cigarro es de mi cigarrel"—this cigar is from my garden. And from this the word cigar spread over the world. The name cigarral for garden comes from eigarra, grashopper, that insect being very comon in Spain, and eigarral meaning the place where the cigarra sings. In this way the word orgar comes from cigarra, the name of the insect, not because it resembles the body of the grasshopper, but because it was grown in the place it frequents.

The Sufferers From Colds. Philadelphia News: Dr. Boerhaave, famous German physician, is quoted as having once said: "Only fools and beggars suffer from the cold, the latter not being able to get sufficient clothes, and the others not naving the sense to wear them." John Hunter, a celebrated English surgeon, gave three simple rules for the rearing of children, and they are just as applicable to adults. They are: "Plenty of sleep, plenty of milk and plenty of flannel." Winter will be along almost before we know it, and it is just as well to bear these wise savings in mind. Walking through a great crowd this morning with a doctor, he pointed out some of the follies of children's dress. "Hundreds of children die every year from lung disease, due to ignorance or neglect," said he. "The legs and chests of children should not be unduly exposed to the wind. Never wear wet or damp clothes one moment longer than possible. Never let wet stockings or shoes dry on you unless you are shoes dry on you unless you anxious to fill an untimely grave."

TRIED TO KILL HIS WIFE

A Jealous Negro Waiter Fires Three Shots With Murderous Intent.

FIGHTING FRENCH NEIGHBORS.

A Gun Play Maile But No Harm Done-A Workman Crushed to Death - An Insano Man's Wild Acts.

Attempted Murder. About 3:30 yesterday afternoon, James Reed, a negro waiter at the Paxton, living at 1110 Cass street, attempted to murder his wife, firing at her with a revolver three or four times. He was perfectly sober at the time, and admits that he was prompted by jealous motives. He has of late been charging his wife with unchastity, and Sunday evening he threated to stab her with a butcher knife and was only prevented from murdering her by neighbors disarming him.

Yesterday, while his wife was at a neighbors, he ordered her home, and on reaching the house he drew a revolver and told her he intended to kill her. She, however, never dreamed that he really meant to carry out his threat until he took deliberate aim at her and fired. Seeing her peril she rushed screaming into the street and ran into the residence of Mrs. Gillen across the way. Reed followed. lowed, firing at her three times, but for-tunately none of the balls took effect. Seeing that she was still pursued she evaded him by slipping out of the back way into the residence of Mrs. Kinsey,

next door.
Officer Newman was only a block away at the time the shots were fired and hurried up to the scene and attempted to arrest Reed. The would-be murderer attempted to escape, but after a lively chase of an block or two he was captured and lodged at the Central police station.

FIGHTING FRENCHMEN.

Neighbors Introduced to Each Other

With a Cocked Gun. Garneau, a Frenchman who lives at Fortieth and Ninton, has a neighbor named Charbonneau, another Frenchman, who lives about a block away. These men have known each other about a week. They never had any dispute or quarrel of any kind, according to Garneau. About noon yesterday Charbonneau filled up with gin and other things and went out to interview his country-man. He did it by approaching him with a cocked revolver and telling him to hold up his hands. Garneau was upholstering a sofa in his yard and did't hold up his hands, but ran into the house to get his own revolver so that the little improptu affair could be made more interesting. The man with the gun followed him into the house, and as Garbeau couldn't get at his own revolver, in time he amicably held up his hands and called a truce. The weapon was lowered and a fist fight proposed. These little civilities Garneau refused. His wife was sick, and the wife of the man of gory intentions followed him into the house and proposed spiking the guns by withdrawing the charges from the revolver, or getting them out in some way. A hurried consultation was held and proposals abandoned. The man was forced away by his friends, and a was forced away by his friends, and a warrant was issued for his arrest. He was captured by the police yesterday af-ternoon and locked up.

CRUSHED TO DEATH. William Cooley Accidentally Killed

in a Stone Yard. William Cooley, a laborer aged about forty years and unmarried, was fatally injured at Drexel & Foll's stone yard ortly before noon by the falling of large piece of flagging upon his stomach. The injured man was removed to the private hospital owned by Dr. Graddy Twentieth street near Harney. At 8 o'clock last evening the man died, and the remains were taken in charge by Coroner Drexel. The deceased is a Canadian by birth, and has no friends or relatives that are known of by anybody in Omaha. He will, however, receive a proper burial.

DANGEROUS INSANITY. A Brief But Exciting Crazy Fit of a

Negro. Knut Nelson, of 2304 Davenport street, was taken with a strange temporary fit of insanity yesterday. He was in Duke's hardware store about 11 o'clock, when it was first noticed. He had asked for a spade and picking one out threw it over his shoulder and started to walk out with it. He was reminded by the clerk that he had not yet paid for it, when he turned furiously on the salesman and attempted to brain him with the spade. The other persons in the store rushed to the clerk's assistance, whereupon Nelson threatened to kill the whole outfit. A policeman was called, and after a desperate struggle Nelson was captured and taken to the central police station. Here he was examined by Dr. Ralph, pronounced insane, and ordered sent to the county jail, where he could be more properly cared for. After being removed to the jail he began to stop raving, and after a while acted so rationally that medical help was again summoned and a second examination resulted in his discharge as a perjectly sane man. He was not intoxicate at the time, and has no remembrance of of the events that transpired during his

RAILROAD NEWS.

Does the U. P. Road Want a Line to Chicago?

An old rumor has again taken wings and is flying around to the effect that an arrangement is to be effected by which the Chicago, Mitwaukee & St. Paul road is to enter Omaha by way ot the Union Pacitic bridge, and the Union Pacific is to run its trains direct to Chicago over the former road. There is a color of plausibility in the theory that the Union Pacific ought to have a direct line to Chicago, especially as the Northern Pacific and Santa Fe, hoth rivals, are building to that point from St. Paul and Kansas City, respectively. Mr. Dekenson, who was spoken to about the matter, said that he knew nothing of the consummation of such a project, but hoped that something of the kind would be done. Mr. Kimball said the story was for-

warded probably upon the negotiations which were pending some time ago, by which the Chicago, Milwaukee & St. Paul sought to gain entrance to Omaha over the Union Pacific bridge. With the facts premised above, however, he thought it was all theory and conjecture. Speaking of the matter another rail-road man said the idea was visionary. The privilege of the Milwaukee road to enter Omaha over the Union Pacific pridge would in no way compensate it for the use of 500 miles of its track to Chicago by the Union Pacific. As a con-sequence, the latter would be compelled to pay an enormous trackage, which would be more than the interest on the construction of a new line. "I

Union Pacific will see that it will be to its interest to build a line of its own to the lake metropolis. The Union Pacific cannot contract its freight to Chicago to that degree as to send it over one line. The shipper can order his freight eastward from Omaha by any of the Iowa lines, no matter how much soever the Union Pacific might desire to throw it to the Milwaukee."

Mr. Kimbail was again seen and asked

Mr. Kimball was again seen and asked if the fact of the Northern and the South-ern Pacifics making a line into Chicago would not give them an advantage over the Union Pacific. He replied: "Not if the lines running eastward from here give the same facilities to the Union Pa-cific that the other Pacific lines expect to receive from their extension." Such fa-cilities, he thought, the Union Pacific now enjoyed.

now enjoyed.

THE UNION PACIFIC CLAIM DEPARTMENT.

It is pretty well understood by some people that there is a change to be made about October I in the claim department of the Union Pacific. This department now gives employment to between thirty and forty clerks, who are the remnant caused by some of Mr. Potter's reductions in the force. Their duty is that of attending, under supervision, to the overcharges which take place frequently all slong the line. Over them is a head clerk, who is accountable to Freight Auditor Van Kuran. Until recently branches of this claim department were located in San Francisco, Denver, Salt Lake and Kansas City, their duty being to attend to the overcharges in those places. These branches have been abolished and their work is now being done by the freight representatives at done by the freight representatives at those points.

those points.

This has resulted in a cutting down of about fifteen men. As a consequence a good deal of the work untimished by them has been sent to Mr. VanKuran's office and some of it is still in hand. When that is finished it is quite likely that there will be a letting out of some clerks in the department here and then a transfer of the work of the office to the superintendency of the freight department, which will of course bring it under the direction of Mr. Monroe.

A BEE reporter spoke to Mr. VanKuran

A BEE reporter spoke to Mr. VanKuran about the matter yesterday, but he said he had not yet been made aware of the proposed change.
Mr. Kimball said that there were two

Mr. Kimball said that there were two ways of running claims departments. One was as the Union Pacific had been running its claims, as outlined above. The other was placing them in the charge of the freight department, a feature which was now receiving some consideration from the Union Pacific people. It was such a system now obtained on the Burlington and he thought in this respect, Mr. Potter favored the Burlington system.

tem.

There is little reason to doubt, therefore, that on or about the time mentioned above, the change above referred to, will be made.

J. S. Tebbitts and Hoyt Sherman came in yesterday from kansas City. The former reports that the Kansas City brought the New York firemen from Denver to Kansas City on time, making the run of 639 miles in seventeen and one-half hours. The firemen were delivered to them ten hours behind time.

BOARD OF TRADE. A New Church and a Tannery Project

Considered. The directors of the board of trade held a meeting at their rooms last evening, President Meyer presiding. Messrs. Evans and Martin were absent. Among the communications was one from an eastern man asking the prospects of success in the organization of a Universalist church in Omaha. The letter was left to the disposal of the secretary, who will look the matter up and return an an-

A communication was read from a Washington, D. C., party, asking the practicability of establishing a tannery in Omaha. This opened an interesting discussion. Mr. Wakefield thought tha if a tannery could be established in this ety which would consume all the hide to be obtained at South Omaha, it would be the means of establishing here ave or six boot and shoe manufactories. Mr. Meday, manager of Hammond & Co.'s packing house in South Omaha, stated that the project would be impracticable, owing to the dearth of hemlock bark in this part of the country which must necessarily be used in the tanning process. He further stated that the tannery at Lincoln is not a success and that the acid process, which had been in the meantime suggested, was also a failure. The communication was placed on tile.

The directors then made the final ar rangements for the dedicatory exercises. A list of names (about seven hundred in ll) was prepared, to whom invitation to the promenade concert will be for-warded. Chairman Walker, of the banquet committee, reported that his committee had made complete arrangements for the banquet.

CAPTURED A BURGLAR.

Officer Hinchey Catches a House Breaker in Business. At an early hour this morning Tom Carson, a tramp, forced an entrance through a window into a saloon on Twenty-fourth street, south of Vinton. While he was looking the place over and forming some idea of what he desired to take away with him, Officer Hinchey dropped in on the scene, Carson was taken into custody and locked up at the central police station. In his pocket was found an ugly tooking gun.

Synagogue Officers. Sunday afternoon there was an election of officers of the Jewish synagogue association which resulted as follows: president, Meyer Hellman; vice president, J. L. Brandeis; treasurer, Max Meyer, and secretary, J. Blath. Messrs. Ben Newman and D. Black were elected rustees for three years, instead of I. Oberfelder and S. Reichenberger, who have served four years, or from the infancy of the association. Mr. Ober-felder was also president of the association, and in recognition of his services he was allowed to select his successor as above. His devotion to the association has been remarkable and tended in a great degree to make it as prosperous as t is, with a membership of 120 and funds in the treasury.

Brought Back From Illinois. John Creen was brought back from Galesburg, Ill., Sunday night by Miles D. Houck, agent for the state of Nebraska. Creen was immediately lodged in the county jail charged with embezzlement from Messendorf & Co. He was recently employed as a collector the above firm, and after he left the city his accounts were found to be about \$5) short.

and be absent four or five weeks. Charles Barker, the bookkeeper for Peycke brothers, has returned after a trip of several months in Europe. accompanied by Edward Boese, a brother of Henry Boese. They were met at the depot by members of the Kamaradschaft Verein.

M. O. Maul left last Friday night for a month's visit in the east. He is now enjoying a few days in Illinois, and in a few days he starts from Chicago on i special train for Toronto, Canada, with s large party of delegates to the world's convention of Knight Templars, to which he is a delegate from this city. After the convention he will take a trip down the Hudson to New York City, where he will remain a few days, and will then start on nis journey home

Merit will win and receive public recognition and praise. Facts, which are the outcome of general experience, growing through years of critical and practical test, become as rooted and immovable as the rock of Gibraltar in public opinion, and hence ineness. The indisputable fact that Swift's Specific is the best blood purifier in the world, is one of these immovable Gibraltar rock facts of which we have spoken, and every day's experience roots this conviction deeper and deeper in public opinion. Every class of our people in America and in Europe, every trade, calling and profession, including the medical profession, have borne voluntary testimony to the remarkable virtues of S. B. S. and its intailible efficacy in curing all diseases of the blood. These testimonials are on file by the thousands, and open to the inspection of all. Now come, unsolicited, two distinguished members of the theat-rical profession, who gratefully testify to the wonderful curative qualities of the Specific in their individual cases. Their testimonials are of herowith submitted to the public without further comment—let them speak for themselves. The lady is a member of the famous Thalia Theatre Company, of New York, and formerly of the Residence Theatre, Berlin, Germany, and of McVicker's Stock Company, of Chicago. The gentleman is a well known member of the New York Thalia Theatre Company, Both are well known in theatrical circles in this country and in Europe. ineness. The indisputable fact that Swift's Spe

Swift Specific Company, Atlanta, Ga.:

Gentlemen-Having been annoyed with pimples, eruptions and roughness of the skin, from bad condition of my blood, for more than a year, I used a leading preparation of sarsaparilia and other advertised remedies to no effect. Then I consulted a prominent physician, and from his treatment received no benefit. I then concluded to try the S.S. S. remedy for the blood and five or six packages, by a thorough cradication of my trouble and restoring smoothness to my skin, have made me happy, and I cheerfully give you this testimonial for such use and publicity as you wish to make of it.

MARKET GARDENING.

An Interview With One of Oma ha's Vegetable Gardeners.

An Article of Interest to All-The Life of a Sailor-How the Good Ship"Health" was Foundered, Etc., Etc.

The life of a sailor is often very interesting reading to the citizens of the western country. Knowing this to be the fact a reporter shouldering his note book and Faber No. 2, started out to find an old sailor, and interview him on the matter. The reporter met Mr. Bernard Carstens, who resides in Central Park near the city limits. Mr. Carsten's, a German by birth is ir business as a gardner and trucker and supplies the hotels and restaurants of Omaha with fresh vegetables every morning. On being accested by the reporter he said: "Yes, I sailed the seas for about ten Years, and in that visited almost every country in the world. I have to China, Australia, New Zealand, the East Indias, and almost every seaport along the Mediterranean sea. The life of a sailor is a hard one as well as a dangerous one, and only a man with a very good constitution can stand it very long. I enjoyed my life on the seas and was always healthy there. In fact I never had a days sickness until about one year ago."

"Then you have been sick lately," asked the reporter.

"Yes, I was taken sick last fall. I lost my ap-

sickness until about one year ago."

"Then you have been sick lately," asked the reporter.

"Yes. I was taken sick last fall. I lost my appetite, could not eat enough to keep a child alive, had night sweats, would get up in the morning feeling worse than a man who had not slept at all, could only eat a little breakfast, and would have to vomit that up very soon after eating it. I was attacked with a bad hacking cough which would cause me intense pain in my cheet and lungs, would have chills and fever every three or four days. My condition became alarming. I could scarcely lift as much as a child. As I said before I became alarmed, and hearing and reading considerable about Drs. McCoy and Henry I considerable about Drs. McCoy and Henry I considerable about had catarrhal consumption and promised to cure me in two months. Not quite a month has elapsed and I am well again. I have no more night sweats, no more chills and fever, do not vomit any more in the morning, and to tell the truth feel like a new man altogether. I feel as though I could not say enough for Drs. McCoy and Henry for they have is deed worked wonders in my case:

The above cut is a very good portrait of Mr. Carstens, who resides in Central Park, near the city limits, where he will gladly corroborate the above statement to anyone who will take the rouble to call or address him there. LEADS TO CONSUMPTION.

MR. BERNARD CARSTENS.

When catarrh has existed in the head and the upper part of the throat for any length of time—tre patient living in a district where people are subject to catarrhal affection—and the disease has been left uncured, the catarrh invariably, sometimes slowly, extends down the windpipe and into the bronchial tubes, which tubes convey the air to the different parts of the lungs. The tubes become affected from the swelling and the nucous arising from catarrh, and, in some instances, become plurged up, so that the air cannot got in as freely as it should. Shortness of breath follows, and the patient breathes with labor and difficulty.

In either case there is a sound of cracking and wheezing inside the chest. At this stage of the disease the breathing is usually more rapid than when in bealth. The patient has also hot dashes over his body.

than when in beauth. The patient has also not dashes over his body.

The pain which accompanies this condition is of a dull character, feit in the chest, behind the breast bone, or under the shoulder blade. The pain may come and go—last few days and then be absent for several others. The cough that occurs in the first stages of bronchial catarrh is dry, comes on at intervals, backing in character, and is usually most troublesome in the ter, and is usually most trouble morning on rising, or going to bed at night and it may be in the first evidence of the disease ex-tending into the lungs. Sometimes there are fits of coughing induced

Sometimes there are its of coughing induced by the tough mucus so violent as to cause vomiting. Later on the mucus that is raised, is found to contain small particles of yellow matter, which indicates that the small tubes in the lungs are now affected. With this there are often streaks of blood mixed with the mucus. In some cases the patient becomes very pale, has fever, and expectorates before any cough appears. appears.

In some cases smal lmasses of cheesy substance are spit up, which, when pressed between the fingers, emit a bad odor. In other cases, particles of a hard, chalky nature are spit up. The raising of cheesy or chalky lumps indicate serious mishief at work in the lungs.

SNEEZING CATARRH.

What It Means, How It Acts, and What It Is.

What It Is.

You sneeze when you get up in the morning, you try to sneeze your nose off every time you are exposed to the least draft of air. You have a fullness over the front of the forehead, and the nose feels as if there was a plug in each nostril which you cannot dislodge. You blow your nose until your ears crack, but it don't do any good, and the only result is that you succeed in getting up a very red nose, and you so irritate the lining membrane of that organ that you are unable to breathe through it at all. This is a correct and not overdrawn picture of an acute attack of catarrh, or "Sneezing Catarrh" as it is called.

Now, what does this condition indicate? First, a cold that causes mucus to be poured out by the glands are attacked by swarms of little germs—the catarrh germ—that float in the air in a locality where the disease is prevalent. These animalculae, in their efforts to find a lodgment, irritate the sensitive memorane lining the nose and nature undertakes to rid herself of them by producing a fit of sneezing.

When the nose becomes filled with thickened and diseased mucus the natural channels for the introduction of air into the lungs is interfered with, and the person so effected must breathe through the mouth, and by such means the throat becomes parched and dry, snoring is produced, and then the catarrhal disease guins ready access to the throat and lungs.

DOCTOR

J. Cresap M'Coy

Late of Bellevue Hospital, N.Y
